MICROVERSE

Remote

Mentor (Volunteer)

December 2020 – May 2021

- Assisted two junior developers weekly to ensure their mastery of Full-Stack web development.
- Provide continuous support through one-to-one video conference calls and asynchronous Loom videos to mentees.
- Inspire and motivate junior developers to work hard.
- Worked with mentees to solve their personal and technical difficulties.
- Help prepare a structured roadmap for mentees to efficiently finish their curriculum.

TEST-BIRDS

Remote

Freelance

June 2015 – Current

- Performed more than 10000 hours on different apps, and websites, which have a real impact on daily life, and performed multiple tasks on them.
- Worked with Immunity Debugger and other tools to perform security for multiple projects like facial recognition.
- Performed usability tests, and cross-browsing testing with the selenium web driver.

EDUCATION

MICROVERSE

July 2020 – Current

Remote Full-Stack Web Development Program, Full Time

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair-programming using GitHub, industry-standard Gitflow, and daily stand-ups to communicate and collaborate with international remote developers.

Udacity

Full-stack web developer.

August 2019 – April 2020

- Spent 2000+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with python.
- Optional: Awards and honors.
